

Solutions for Breweries

Solutions for Breweries

DuBois is committed to provide complete solutions that take the total cost of your sanitation application into consideration. Our solutions are designed to minimize the overall cost of operations by reducing labor time, chemistry, water and production downtime.

Quel Products

Our Quel line of sanitation products deliver quality performance and economical solutions for the brewing industry. They are available in 5 gallon pails, 55 gallon drums and 330 gallon totes.

The Quel line includes the following products:

- Quel Acid CIP – Beer stone removal in tanks, vats and lines
- Quel ALK Foam – Chlorinated foam cleaner
- Quel Brew QBW - Powdered, oxygen bleach cleaner for brewing equipment
- Quel Brew Add - Liquid additive for alkaline beer stone control
- Quel CIP HD – CIP cleaning of tanks and lines

Other DuBois Solutions

- Dicasan PAA – Sanitizer for tanks and lines
- NeuQuat – Quat sanitizer
- Treo General Purpose Cleaner – Environmentally safe cleaner
- LC-6016 – Acid CIP Blend
- LC-5017 – Alkaline CIP blend with EDTA for beer stone removal
